

THE CHOICE IS SIMPLE

LOWER PRICE, HIGHER ROI

Simplify your lighting needs with the new **MLTS** from Generac Mobile. **Smart, Simple, Small footprint** - the MLTS light tower is designed for a wide variety of applications. The 2-cylinder engine provides ample power for the LED fixtures, with optional 2.4kW export power for other jobsite needs. Its small, easy-to-tow size makes the MLTS a great lighting choice for general rental, construction, roadwork, events and more. With a lower initial price point and up to 220 hours runtime, your return on investment is faster than ever. The choice is simple.
